

Can I change the front mount type on my torque arm? (Poly bushing, rod ended, del-sphere)

Yes, all of our torque arm front mount types thread in to the front of the torque arm and can be easily replaced and exchanged. If you ordered a rod end and want to switch to a poly bushed end, etc. it is easily accomplished. Follow the links below to purchase a replacement front torque arm mount.

Torque Arm Front Mount Pieces:

Polyurethane Bushing: Part #050

Spherical Rod Ended: Part #052

Del-Sphere Pivot Jointed: Part #DS-TA
