Why do KYB front shocks not fit on your SKU 741, 745 front lower a-arms for the 1993-2002 GM F-Body?

The KYB front shocks for the 1993-2002 GM F-Body (Camaro & Firebird) are much larger at the bottom mounting area than the stock and other aftermarket shocks and will not fit through the cut out on our a-arm's shock mount.
