

Spohn Performance | Support Center

Do you offer a power rack and pinion option for your 1982-1992 F-Body Camaro Firebird k-members?

As of this time we only offer the Pinto manual rack and pinion kit for the 1982-1992 F-Body Camaro and Firebird tubular k-members.

The rack mounts for the Pinto manual rack are much different then what would be required for a power rack so you would not be able to mount your own power rack to our k-member with Pinto rack mounts.
