

I have your SKU# 737 or 738 front coil over kit on my 1982-1992 F-Body Camaro Firebird, can I install the QA1 front struts?

- If you already have a Spohn Performance SKU# 737 or 738 front coil over kit on your 1982-1992 F-Body Camaro or Firebird and want to install the QA1 adjustable front struts you will need to make sure you purchase the proper package that includes everything you need. We have packages available that include the QA1 adjustable front struts along with all of the coil over spring mounting hardware that is required to mount your existing coil over springs on to the QA1 front struts. You can find these packages at the following links:
 - QA1 Single Adjustable Front Struts Retrofit Package
- QA1 R Series Rebound Adjustable Front Struts Retrofit Package
- QA1 Double Adjustable Front Struts Retrofit Package
