

Do your SKU# D94-02-RTB-QCSB traction bars for the 1994-2002 Dodge Ram 4x4 fit trucks besides the quad cab short bed?

Our SKU# D94-02-RTB-QCSB Extreme Duty Rear Traction Bars for the 1994-2002 Dodge Ram 4x4 1500, 2500 and 3500 Quad Cab Short Bed will fit all other 1994-2002 Dodge Ram 4x4 trucks but they will NOT be a 100% bolt in installation. On trucks other than the quad cab short bed the front mounts will not line up with existing holes in the frame and therefore you will have to either drill holes in the frame and then fish nuts inside the frame or you will have to weld them on. Otherwise, there are no fitment issues.
